PREMIUM COATED NUTS

For us, the ingredients are key

We are passionate about producing unique snacks, and we believe that our premium nuts are not just about snacking, but about the whole experience!

We offer unique flavours

“Our flavours cannot be found anywhere else, and we believe our coated nuts are the new top snack - healthy, with the perfect portion size, and nothing short of an extraordinary experience!”

We cater to a range of businesses that serve a demanding set of clients, all of whom expect their snacks to be an elevated, complimentary experience, accompanying their cocktail, glass of wine or juice.

The food we eat is an emotional experience

It plays a big part in generating the memories and feelings that we treasure. Flavours and scents are key when it comes to our choices and preferences about the snacks we bring to the table, generating a unique tasting experience.

Real ingredients

We use real ingredients - not aromas, not flavour-infused oils or salts, not powders.

We source our products from the Mediterranean region –real Italian truffles, real French cheese, real seeds, herbs and spices.

Making authentic flavour profiles is very important to us, and therefore we are also extremely selective when it comes to our suppliers.

Visible toppings

We don't just offer an authentic taste, but also a rustic look – toppings are clearly visible and recognisable by the naked eye.

Special formula

Due to our unique, proprietary formula and production process, the toppings don't fall off the nuts. They stick!

The production process requires handcrafted steps, and a well-trained, coordinated team.

We always roast them fresh after receiving the order, thus ensuring the best possible quality for on-time delivery.

Hrib is a 'Friends & Family' Business

Managed by two families for two generations, Hrib is a trendsetter when it comes to coated and roasted nuts, catering to the giants of the EU market for 30 years - and all this from Europe's best kept secret for keen foodies, Slovenia.

The name Hrib translates to "a hill", although amusingly enough, the company is situated in a verdant valley. The Kozjansko region's landscape is breathtakingly beautiful, and if you hike up the nearest hill you will be amazed to see the ruins of ancient Celtic settlements.

Quality is our Top Priority

At Hrib, we are passionate about producing unique snacks and offering the full spectrum of Mediterranean flavour profiles, new niche recipes, and top-notch ingredients.

It's not by coincidence that we meet the highest food standard requirements in the world, such as **IFS Food**, achieving higher-level scores during unannounced audits.

Sustainability as a Core Value

We are driven towards full sustainability. We use solar energy in our premises, which is generated from our own solar power plant, and we recycle all our waste. Moreover, more than 95% of our packaging is fully recyclable. Additionally, we at Hrib place a very big emphasis on product research and development, continuing to search for new technologies. We conduct tests with compostable and biodegradable packaging, and we are quick to apply global sustainability trends. For instance, we were the first in Europe to sell snacks in innovative, plastic-free, paper packaging.

Socially Responsible Company

Through our mission, we are building a socially responsible business. Our social and environmental responsibility is reflected in the way we treat our customers, our employees, our community, and our planet. We take great pride in nurturing people we work with, enabling them to grow and develop both personally and professionally.
